Contents Volume 47, 1990

Obituary — Professor Martin Glaessner
P. Cloud (Santa Barbara, CA, U.S.A.) 1
Ductile reactivation of Proterozoic brittle fault rocks; an example from the Vestfold Hills, East Antarctica
C.W. Passchier, J.D. Hoek, R.F. Bekendam and H. de Boorder (Utrecht, The Netherlands) 3
Geochemistry and origin of early Proterozoic volcanic rocks from the Transvaal and Soutpansberg successions, South Africa
C. Crow (Las Vegas, NV, U.S.A.) and K.C. Condie (Socorro, NM, U.S.A.) 17
Archaean microbiota from the Donimalai Formation, Dharwar Supergroup, India
B.S. Venkatachala, M.Shukla, M. Sharma (Lucknow, India), S.M. Naqvi, R. Srinivasan and B. Udairaj (Hyderabad, India) 27
Major and trace element geochemistry of the Archaean Ntem plutonic complex (south Cameroon): petrogenesis and crustal evolution
A. Nedelec, E.N. Nsifa (Yaoundé, Cameroon) and H. Martin (Rennes, France) 35
The Early Proterozoic Orijärvi triangle (southwest Finland): a key area on the tectonic evolution of the Svecofennides
M. Ploegsma and L. Westra (Amsterdam, The Netherlands) 51
The paleoecology and significance of the Gunflint-type microbial assemblages from the Frere Formation (Early Proterozoic), Babberu Basin, Western Australia
K.J. Tobin (New Orleans, LA, U.S.A.) 71
Geochemistry of Late Proterozoic basaltic rocks from southeastern New Brunswick, Canada
J. Dostal (Halifax, N.S., Canada) and S.R. McCutcheon (Bathurst, N.B., Canada) 83
Geochemistry and sedimentology of a facies transition — from microbanded to granular iron-formation — in the early Proterozoic Transvaal Supergroup, South Africa
N.J. Beukes (Johannesburg, South Africa) and C. Klein (Albuquerque, NM, U.S.A.) 99
Traces and dubiotraces: examples from the so-called Late Proterozoic siliciclastic rocks of the Vindhyan Supergroup around Maihar, India
A. Chakrabarti (Kharagpur, India) 141
Preface
K.C. Condie (Socorro, NM, U.S.A.) and Sun Dazhong (Tianjin, P.R. China) 155
Timing of plutonism in the Proterozoic Albany Mobile Belt, southwestern Australia
R.T. Pidgeon (Perth, W.A., Australia) 157
Spatial and temporal diversity of early Proterozoic volcanic sequences — comparisons between the Baltic and Laurentian shields
T.C. Pharaoh (Keyworth, U.K.) and T.S. Brewer (Nottingham, U.K.) 169
Rb–Sr and Sm–Nd isotopic dating of an Early Precambrian spilite–keratophyre sequence in the Wutaishan area, North China: Preliminary evidence for Nd-isotopic homogenization in the mafic and felsic lavas during low-grade metamorphism
Shuguang Li (Hefei, P.R. China), S.R. Hart (Cambridge, MA, U.S.A.) and Tieshan Wu (Yuci, P.R. China) 191
Geochemical evidence for Proterozoic continental arc and continental-margin rift magmatism along the northern margin of the Yangtze Craton, South China
Gao Shan, Zhang Benren and Li Zejiu (Wuhan, P.R. China) 205
Magmatic and geotectonic evolution of a Proterozoic oceanic basin system: the Cape Smith Thrust-Fold Belt (New-Quebec)
C. Picard (Montréal, Canada), D. Lamothe (Montréal, Canada), M. Piboule (Grenoble, France) and R. Oliver (Grenoble, France) 223
The nature of Late Proterozoic high-grade gneisses of the Leeuwin Block, Western Australia
S.A. Wilde and D.M.K. Murphy (Perth, W.A., Australia) 251
Rb–Sr ages and petrologic features of Precambrian rocks from the Oban Massif, southeastern Nigeria
B.N. Ekwueme (Calabar, Nigeria) 271

Origin of Late Archean and Early Proterozoic rocks and associated mineral deposits from the Zhongtiao Mountains, east-central China
Sun Dazhong, Hu Weixing, Tang Min, Zhao Fengqing (Tianjin, P.R. China) and K.C. Condie (Socorro, NM, U.S.A.) 287
Early Proterozoic Svecofennian volcanism and associated plutonism in Enklinge, SW Finland
C. Ehlers and A. Lindroos (Åbo, Finland) 307
